Write any food you are allergic to and what happens to you when you are exposed to this food:

Are you allergic to any Medications? YES NO
Write any medication you are allergic to and what happens to you when you are exposed to this medication:

In the event of an emergency, patient information plays an important role in the ability of paramedics to deliver the best care possible. South Kingstown EMS has developed yellow cards for patients, which they can simply hand to the paramedics in the event of an emergency. **The Yellow Card** will provide quick and easy access to your basic medical information. The information recorded on the cards include name, date of birth, medical history, daily medications, and allergies.

Yellow cards are available at the SKEMS Headquarters, located at 509 Commodore Perry Highway, Wakefield, RI 02879. You may request one via e-mail to cstanley@southkingstownri.com
