Subject: second page of the notice

Wayne, Jessica and chairman,

I went to the city hall on April 17 looking for second page of the notice. As Wayne told me the law firm said there was no such second page for the notice today..

I put 3 ways to link the second page for your all to see the second page .

The second page has very important information, link to this matter, zoning contact information, email, phone, dead line and how to get help.

I can not accept this situation the law firm and applicant did not send me the full documents.

It violates my right. I have not received full legal notice within 14 days of the proposed meeting. The dimensional variance for 94 Windchester Drive, South Kingstown should not be discussed in the public hearing.

Off course I do not support this dimensional variance for above address.

Regards,

Yan Krolicki
