

# GREEN TIP OF THE MONTH

## *Mattress Recycling at the Rose Hill Transfer Station*

### **Is Your Mattress Recyclable?**

First, free mattress and box spring recycling at the Rose Hill Regional Transfer Station is restricted to residents of South Kingstown and Narragansett only. Non-residents or commercial haulers will be charged \$80 per piece.

Next, a recyclable mattress must be a sleep surface that is whole and intact; dry; not broken, twisted or damaged; free of bed bugs; free of odors or excess fluids. The same criteria may be applied to box springs that support a sleep surface. Recyclable box springs are also eligible for free recycling.

Transfer station staff come out to inspect your mattress and check for your proof of residency. Mattresses or box springs not meeting this criteria or that are from other communities are charged \$80 per piece.

Please call us for more information!
