Subject: Re: 4/22/20 zoning board meeting -- application for a sports field

Thank you for forwarding the new executive order to me. My prior emails never questioned the Board's right to conduct meetings on essential matters, rather I questioned the wisdom of bringing this particular "non-essential" petition at this time -- given the public health concerns in serving notice by hand delivery on 140 units of senior citizens while this pandemic is ongoing. However, given the changes made in the Governor's new order, I no longer request that it be delayed.

Sincerely,

Rob Thurston
