

TOWN OF SOUTH KINGSTOWN

South Shore and Middlebridge Hydrant Flushing Notice

The South Kingstown Water Division will be
flushing hydrants Tuesday, October 13, 2020
through Friday, October 30, 2020
during the hours of 8:00 a.m. and 4:00 p.m.

Our customers may experience some rusty water
and lower than normal pressure. We apologize
for any inconvenience this might cause. Customers
should let their faucets run until water clears.

In addition, chlorine may be detected as we
are performing additional disinfection
treatment during flushing.

This semi-annual procedure removes sediment
in the mains and checks the operation of all hydrants.

If you have any questions, please call the
South Kingstown Water Division
at (401) 789-9331 ext 2257.
